

User Experience Designer for 24-7 Prayer

24-7 Prayer is seeking a highly skilled and experienced user-interface/user experience (UI/UX) designer with a heart for prayer and desire to see God's Kingdom come, to design the visuals and overall feel of a prayer App to provide an outstanding user experience.

This is an exciting opportunity for a talented, innovative, God-centred and fresh-thinking designer to design a prayer App to serve the global Christian family, using cutting-edge interaction designs and applying their visual design flair.

The successful candidate will have experience with rapid, iterative, user-centred development processes, and have a portfolio that shows a range of design deliverables relevant to each stage (Eg. wireframes, storyboards, low fidelity and functional prototypes, and polished end state UI designs) and will be comfortable designing for both web and apps.

Deliverables:

Develop 24-7 Prayer's product vision for a global multi-denominational prayer App.

You will build on existing research and using a human/user-centred design approach, rapidly testing and iterating designs in close collaboration with the 24-7 Prayer's focus group in Guildford, UK and the core 24-7 Prayer product team to deliver an exciting and easy user experience.

Specifically:

- Translate concepts, through sketches into wireframes and mock ups, designing the entire user experience end-to-end.
- Identify design/concept challenges and devise elegant solutions.
- Design user stories, user journeys, and optimized for hybrid app development.
- Make strategic design and user-experience decisions related to functions that will feature on the Beta edition through to future features and capabilities for later editions.

What's needed?

- You'll be highly effective at getting things done, and comfortable working at pace and working with a decentralised team whom you will often need to communicate with to via email and Skype.
- You'll be friendly, articulate, and confident collaborating and presenting to peers and influencing stakeholders.
- You'll have keen user focus, and exemplify user-centred design.
- You'll be ambitious enough to deliver the best in the market, but humble in understanding the real needs of users.
- You'll always be up-to-date with the latest design technologies, trends, and techniques.
- You'll apply your specialist interaction design skills for web apps to ensure complex tasks become intuitive and enjoyable to the user.
- You'll have exceptional flair for visual design - including composition, layout, information hierarchy, typography and colour.
- You'll provide design assets ready for development, including specification, iconography, graphics, and more.

Essentials

- Talent for fresh out-of-the-box thinking, and creative solutions.
- Passionate commitment to the Christian faith.
- Able to create wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas
- Specialist skills in web app design.
- An impressive portfolio outlining your design work.
- Experience in developing UX & UI standards and guidelines.
- Great coaching, mentoring, and influencing skills.

Project timeframe

Start date: 1 July 2017

Final design signed off: 1 October 2017.

Remuneration

Competitive package

Location

24/7 Prayer is based in Guildford UK. You will not need to be based in Guildford, but as the team will want to work closely with you on the design iteration, applicants need to be aware of the expectation to attend meetings in person in Guildford on a regular basis throughout the life of the project.
